PROFESSIONAL SUMMARY

Results-driven IT Technician with hands-on experience across infrastructure support, networking, cybersecurity, and web development. Currently providing remote and field IT support to 30+ branches for a Safaricom dealership, keeping hardware, software, and connectivity running smoothly across a widely distributed network. Proven track record in hospitality IT, freelance web development, and network consulting, with a reputation for cutting downtime, resolving issues fast, and keeping end-users productive. Comfortable working independently or as part of a team, on-site or remote, and adaptable to any IT environment.

WORK EXPERIENCE

IT Support Technician — Remote & Field

Samchi Telecom (Safaricom Dealership) | Nairobi, Kenya | Present

- Provide remote and on-site IT support across 30+ branches in rural areas for a leading Safaricom dealership.
- Perform hardware and software maintenance on desktops, laptops, and dealership/POS systems, minimizing downtime across the branch network.
- Diagnose and resolve technical issues remotely first, travelling on-site only when physical intervention is required, a cost-effective, fast-response support model.
- Maintain network connectivity, software installs/updates, and basic security controls across a widely distributed branch network.
- Document recurring issues and fixes, building an internal knowledge base for faster future resolution.

IT Support & Web Developer (Acting IT Lead)

After40Hotel | Nairobi, Kenya | Aug 2024 - 2026

- Owned the hotel's IT systems and infrastructure end-to-end, supporting both business operations and guest experience.
- Rebuilt and relaunched the hotel's website after 6+ months of inactivity, restoring the online presence and improving page-load speed by 40%.
- Configured and maintained network infrastructure, CCTV, and access-control systems across 50+ rooms and offices, improving reliability by 30%.
- Introduced preventive maintenance schedules that cut unplanned downtime by 50% over 12 months.
- Trained 10+ staff on IT SOPs and troubleshooting guides, reducing recurring support requests by 20%.
- Delivered strong, guest-facing IT results in a fast-paced hospitality environment.
